

A Spiders life

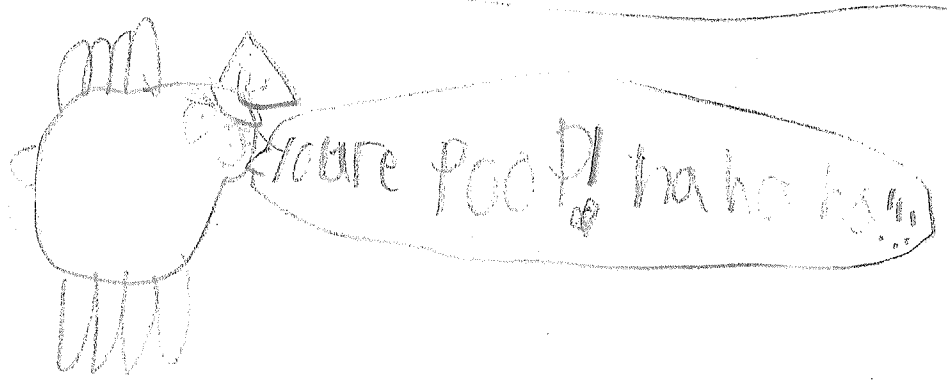

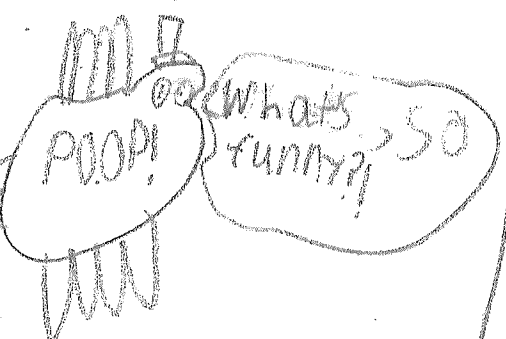

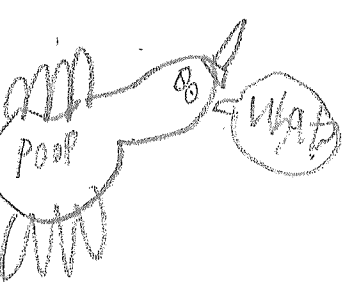

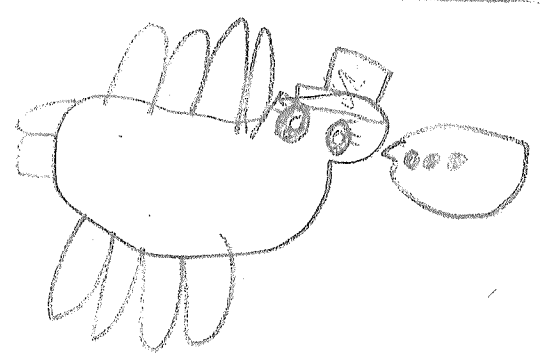

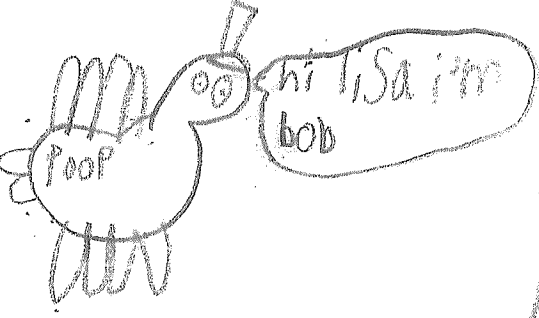

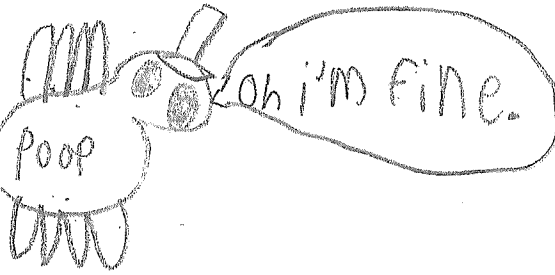

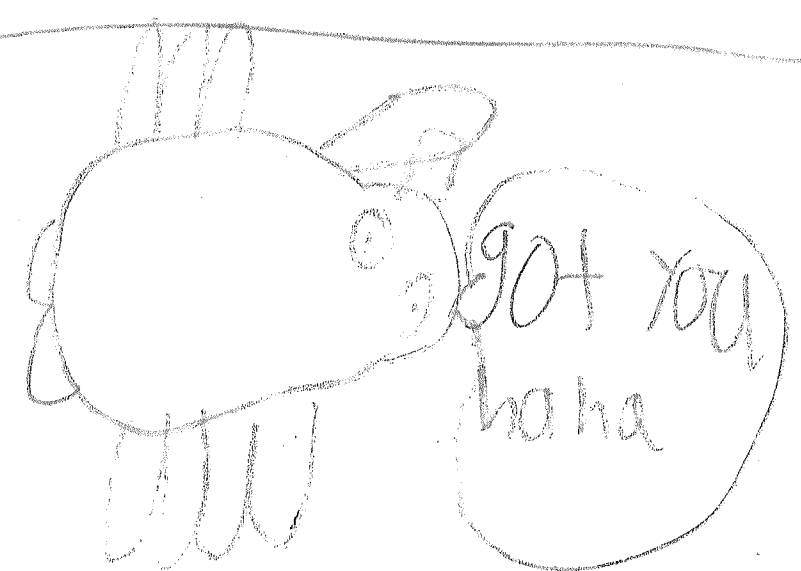

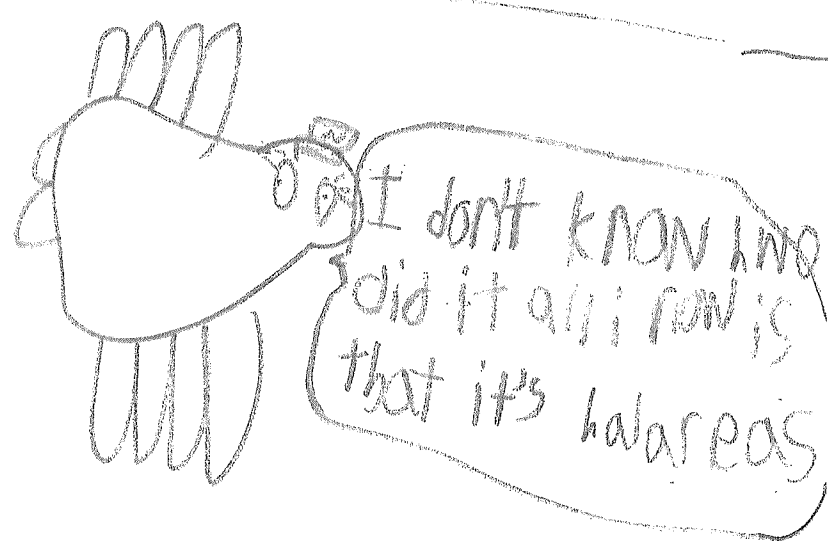

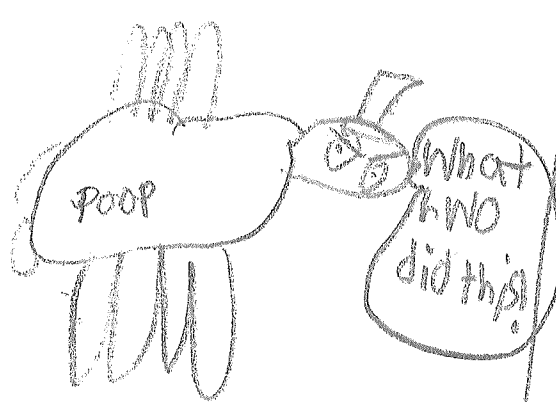

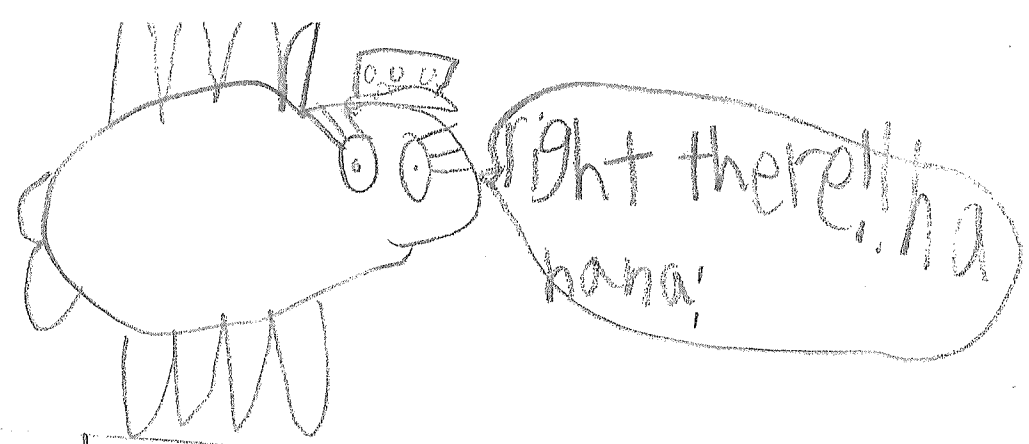

Written by Eleanor Hutchison

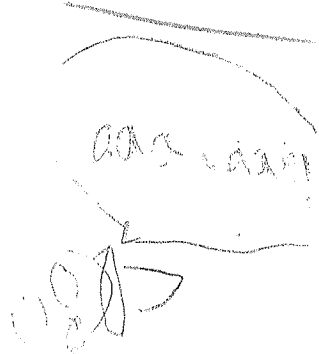

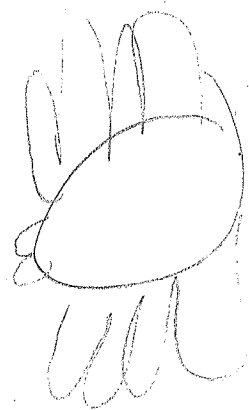

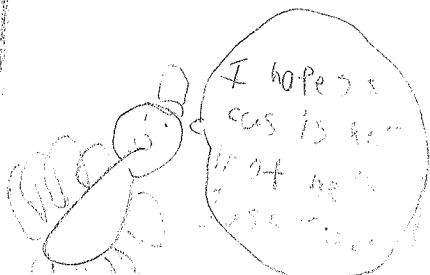

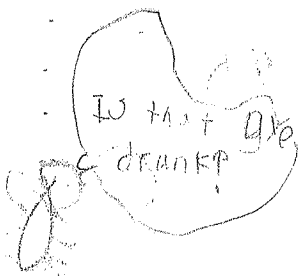

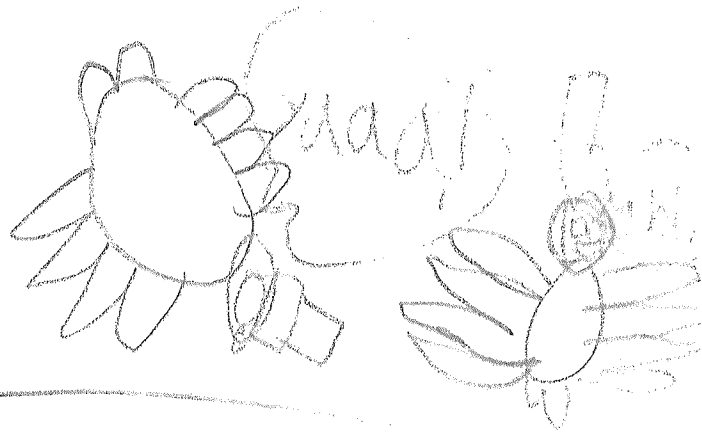

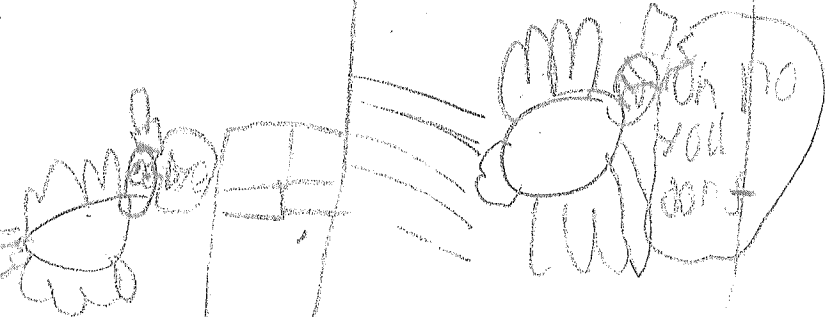

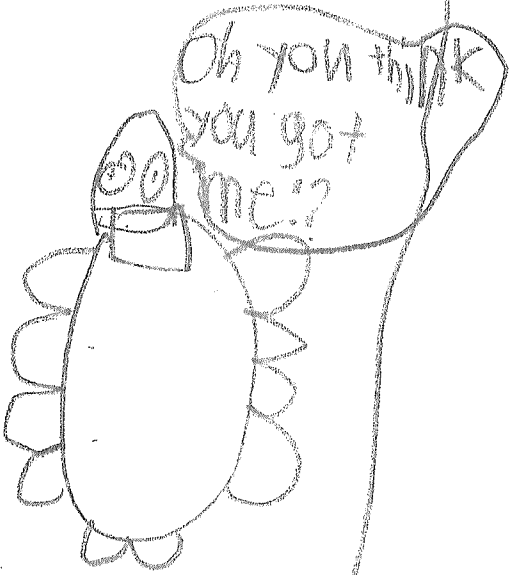

Illustrated by Eleanor Hutchison

For my dad who
always loved spiders.

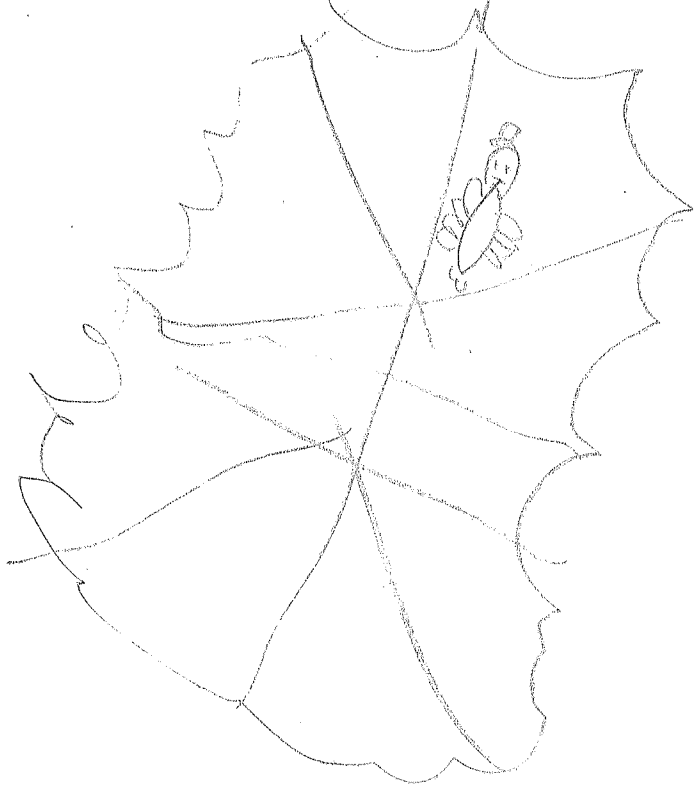

The end!

about the author

The author Hutchison wrote this book when she was 8
and always loved books. She loved her parents just as
much as her dad loved spiders so she wrote this book
for him. She loved spiders so she thought that
if she loved books and spiders why not make a book
about spiders. And that's how she got the idea to
write this book.
