

Title: The minister of Spots
Written By: Torryn Davis

Have you had to sole a minister?

One day Lilly ran out of bed to go wake up her mom and dad. Spots ran away! She's a griffge we can see her from a mile away don't worry.

Well let's go find her. So get up and get dressed. Where to first? I don't know your her best friend. Just drive around. Wait let's go to the zoo but get pizza first. Why pizza? It's his favorite food.

Spots we have pizza spots. How is she not here? It's her favorite place. Wait let's go see if she's home just in case. No Spots are not here, let's leave the pizza here. Let' go to the beach. There she is. Spots! Let's go home.

Wait mom dad can you make a fence like a 12 foot fence.

Don't you think that it will be big.

No she's a giraffe. I think that it might be too small. Let's make it 15 feet.

Ok 15 feet it is.

Thank you. Your the best

One year later they had to go do the same thing but she was not at the beach she was at the zoo. One more year later and again she ran away but she was not at the zoo or the beach. She was at a pizza restaurant.

When spots ran away every year they wondered how she got out but when they were thinning she got out but they did not know until the next day when Lilly want to feed her that was at 7:00. When she was going to go wake up her mom and dad but she saw spots at the nabors. So she got her and put a roof on the pen and she didn't get out until the next day she got out with the roof on. But the minister is that we don't know how she gets out. Dad let's put a camera in the pen.

Ok why?

So we know how she gets out.

The next day, ok let's go get her there she is at the neighbor. Ok let's watch the video.
